LISTENING

Your scaled score is between 200 and 300. Test takers who score around 200 typically have the following strengths:

- They can understand short (single-sentence) descriptions of the central idea of a photograph.
- They can sometimes understand the central idea, purpose, and basic context of extended spoken texts when this information is supported by a lot of repetition and easy vocabulary.
- They can understand details in short spoken exchanges and descriptions of photographs when the vocabulary is easy and when there is only a small amount of text that must be understood.
- They can understand details in extended spoken texts when the requested information comes at the beginning or end of the text and when it matches the words in the spoken text.

To see weaknesses typical of test takers who score around 200, see the "Proficiency Description Table." If your performance is closer to 300, you should also review the descriptors for test takers who score around 300.

READING

Your scaled score is close to 150. Test takers who score around 150 typically have the following strengths:

- They can locate the correct answer to a factual question when not very much reading is necessary and when the language of the text matches the information that is required.
- They can understand easy vocabulary and common phrases.
- They can understand the most-common, rule-based grammatical structures when not very much reading is necessary.

To see weaknesses typical of test takers who score around 150, see the "Proficiency Description Table."

HOW TO READ YOUR SCORE REPORT:

Percent Correct of Abilities Measured:

Percentage of items you answered correctly on this test form for each one of the Abilities Measured. Your performance on questions testing these abilities cannot be compared to the performance of test-takers who take other forms or to your own performance on other test forms.

Note: TOEIC scores more than two years old cannot be reported or validated.
